The JOURNAL OF PALEONTOLOGY is published bi-monthly. The numbers issued in January, May, and September are sponsored by The Paleontological Society in cooperation with The Geological Society of America; those issued in March, July, and November are sponsored by The Society of Economic Paleontologists and Mineralogists in cooperation with The American Association of Petroleum Geologists.

The subscription price of the JOURNAL OF PALEONTOLOGY is $6.00 per year prepaid to addresses in the United States.

Single numbers, $2.00 each.

Postage is charged extra for all other countries in the Postal Union, 40 cents on annual subscriptions (total $6.40).

The JOURNAL will furnish reprints at cost. Orders should accompany manuscript.

Communications about the JOURNAL, subscriptions, rates, memberships, change of address, and nonreceipt of preceding numbers should be addressed to Society of Economic Paleontologists and Mineralogists, P. O. Box 979, Tulsa, Oklahoma. Claims for nonreceipt of preceding numbers must be sent in within three months of the date of publication in order to be filled gratis. Communications in regard to advertising should be addressed to J. Marvin Weller, Illinois Geological Survey, Urbana, Ill.

Communications in regard to manuscripts, or purely editorial matters should be addressed to J. Marvin Weller, Illinois Geological Survey, Urbana, Ill., or to C. Wythe Cooke, U. S. Geological Survey, Washington, D.C.

Contributors are requested to instruct their photographers to illuminate fossils from the upper left side, the conventional manner. Plates normally should be arranged for publication at the size of 5 by 7 inches, exclusive of margins, heading, and title. Printed numerals of standard size and form may be obtained free from either editor. When requesting them state number of plates and the dimensions of each plate.

Entered as second-class matter at the Post Office at Tulsa, Oklahoma, under the Act of March 3, 1879. Acceptance for mailing at special rate of postage provided for in paragraph 4, section 538, P. L. and R., authorized April 3, 1935.

The second volume of a work of
MAJOR SCIENTIFIC IMPORTANCE

STRATIGRAPHY
OF THE EASTERN AND CENTRAL UNITED STATES

By CHARLES SCHUCHERT

Late Professor Emeritus of Paleontology, Yale University

This volume (which is Volume II of "Historical Geology of North America") discusses stratigraphic sequences in thirty states, listing and describing many formations, citing original places of definition and other references, together with synonyms. Fossil lists are given for the more important formations. There are abouty eighty correlation charts made especially for the book, as well as similar tables taken from other stratigraphic reports, and many state geologic maps. The stratigraphy discussed is chiefly of the Paleozoic formations; however, along the Atlantic Coastal Plain considerable of the well-konwn Mesozoic and Cenozoic marine history is also presented. The marine Mesozoic formations in the western part of the central states are also described.
